## FISC Finds Home on the Web

Fleet and  
Industrial Supply  
Center,  
San Diego

Customer Service  
Bulletin

Providing the  
latest logistics  
information

Vol. 2

No. 11

**FEB  
1997**

Electronic  
version

Welcome to cyber-supply. FISC San Diego recently launched its own home page on the Internet. This web site contains valuable information for our customers and contractors interested in doing business with government.

The FISC San Diego Web site is yet another tool for customers to get information on FISC products and services. It features the Customer Service Handbook and the FLASH on-line as well as information on Procurement, Household Goods,

MHE/FICP, hours of operation, phone numbers, information on upcoming reserve unit activity, and much more. It is a dynamic site to which we are adding more information every week.

In 1997, Phase II of the internet project will create an interactive web site that will further meet our customers needs. In the works...Requisition status, shipping information and an on-line electronic servmart catalog.

Check out the FISC Web Site at <http://www.sd.fisc.navy.mil>.

## Tips from the Customer Information Center

The FISC Customer Information Center (CIC) representatives are waiting for your calls! If you are expecting your material to come to San Diego via FEDX, UPS or EMERY, the CIC can track your material by accessing different data bases such as Consolidation, Manifesting and Transportation System (CMATS) and Naval Automated Documentation and Transportation System (NAVADS.) The CIC will trace your material and give you the latest shipping status.

If you requested a transshipment through Defense Distribution Center (DDDC) shipping, the CIC can help you find your material and make sure it gets to its final destination. The CIC will provide you with a tracking number, date and time of arrival.

Keep in mind the **"ONE TOUCH"** supply at FISC San Diego. Just **touch** (619) 556-3472 or DSN 526-3472 and the CIC representatives will gladly provide answers for your questions!

---

## Customer Services Meetings...

To maximize the opportunity for customers to discuss matters of concern, FISC holds monthly Customer Service meetings at each site. The meetings are informal and are usually chaired by the Customer Services Officer. If customers desire discussion of specific topics with other key FISC personnel, we request advance notice be given to the Customer Services Officer prior to any monthly meeting.

The following topics were discussed at the previous customer service meeting:

### Naval Station Site

❑ **Subsistence:** Copies of the new 1997 milk and ice cream contract are now available at Naval Station Customer Service. Other than these contracts now being combined, there are no other significant changes on the previous year's contracts.

❑ **SALTS:** The SALTS west coast field representative based at FISC Bldg. 1, Broadway Compound, is available to assist you with pre-deployment SALTS System checks, to provide SALTS training and to address customer questions on any aspects of the SALTS System. Additionally customers should check out SALTS training classes which are not being advertised. Point of contact is Angie Brewer on DSN 522-4036, COMM. (619) 532-4026.

❑ **FISC Training Services:** A range of courses and application procedures are available to customers at the FISC Organizational Development and Support. TQL, Leadership Development, Interpersonal Skills, Procurement and Computer Training are some of the areas in which FISC can train your people. A full listing is contained in the annual catalogue of FISC Training Courses. Contact Terri Bratcher at DSN 522-2038, COMM (619) 532-2038.

### North Island Site Q and A's

#### **Q: Why isn't flight clothing manifested?**

~~A: Flight clothing issues from Bldg. 652-6 (NASNI) are not manifested due to the nature of the material being issued. Please direct further questions to the Material Control Of-~~

~~ficer in Bldg. 652, Fred Threats at 545-9272. No reply to data from DDDC on the above question.~~ Correction: DDDC has nothing to do with Bldg 652 issues of flight clothing as that is a FISC North Island Site. If DDDC makes an issue of flight clothing when North Island is not-in-stock, it will be manifested along with any other delivery we make to local customers. I suspect the issue here is not manifesting at all, but signature service control. This has come up several times in the past and explained to North Island customers.

#### **Q: Why is material delivery from DDDC taking 10-12 days to be delivered after BA status?**

~~A: DDDC uses Uniform Material Movement and Issue Priority System (UMMIPS) time frames to make issues for different Issue Priority Groups (IPGs). Hand outs will be provided at future meetings on time frames.~~

The above answer is wrong. DLA activities, including DDDC, have been held to a higher standard than UMMIPS since 1993. Our current standards are 1 day for IPG I and II, 1 day for IPG III on-station deliveries and 4 days for IPG III off station shipments. On average, as these are measured, we consistently meet the standards. As always, if someone has statistics, not just examples, where we are not meeting them, we'd be glad to look into it.

#### **Q: Where can I find information about Ask-It Procedures/Availability?**

**A:** Points of contact for Ask-It are Jess Cruz, 545-8670, and Kim Davis, 545-8727 at COMNAVAIRPAC NAS NI.

Monthly customer service meetings provide an opportunity to share information, address pertinent logistics concerns, and solicit feedback from our customers. Line and maintenance community participation is encouraged.

Hope to see you at our next meeting:

Naval Station Site -- Second Tuesday, each month, 2:00 p.m., Bldg. 116 NAVSTA, large conference room.

North Island Site -- First Thursday, each month, 1:00 p.m., Bldg. 318-2 NAS NI, Learning Center.

# Advanced Acquisition Planning

FISC San Diego strives to provide prompt, efficient, high quality customer service and assistance for all procurement requirements. This is achieved through teaming and advanced planning.

Advanced planning is essential to ensure effective procurement of requirements. Adequate lead time must be planned to allow for (1) preparation of RFP/RFQ; (2) responses by offerors; (3) contract negotiation and execution; and (4) adequate manufacturing lead/delivery time.

FISC San Diego encourages all customer activities to involve FISC San Diego early in the acquisition planning process. Advance coordination to resolve issues such as market research for commercially available items and services, source selection procedures, statements of work and specifications, contract type, planning benefits all concerned. Points of contact who can assist in the planning stage are provided below, along with major customers supported:

***For large contracts (over \$100,000)***

**Mary O'Brien** (FISCSD (Fleet), PWC, NCBC, PSNSY, FISC PS)  
(619) 532-1351, DSN 522-1351 or mary\_o'brien@mchfmccm.navy.mil

**Teddy Santos** (NADEP, AIRPAC, SUPSHIP)  
(619) 532-2918, DSN 522-1351 or ted\_santos@mchfmccm.navy.mil

**Sheila Wasson** (Navy Medical, SURFPAC, NCTC)  
(619) 532-1118, DSN 522-1118 or sheila\_wasson@mchfmccm.navy.mil

**Fran Cass** (DFAS)  
(619) 532-2703, DSN 522-2703 or fran\_cass@mchfmccm.navy.mil

***For simplified acquisition purchases (\$100,000 and below)***

**Robert Primrose** (619) 556-0361, DSN 526-0361 or  
robert\_e.\_primrose@fmso.navy.mil

**Shelly Pierce** (619) 556-0369, DSN 526-0369 or  
shelly\_m.\_pierce@fmso.navy.mil

***For general information and advanced planning questions please contact the FISC Contract Policy Branch:***

**Mary Ketelhut** (619) 532-3494, DSN 522-3494 or mary\_ketelhut@mchfmccm.navy.mil

**Karen Rainville** (619) 532-3441, DSN 522-3441 or karen\_rainville@mchfmccm.navy.mil

NAVSUP Publication 547 - Contract Request Preparation Guide, provides excellent guidance for advanced planning and for requirement preparation. The following guidelines are for customers submitting Requirements for Contractual Procurement (RCP) to be completed in FY97, including those requiring commencement on October 1 and those utilizing expiring funds.

<b><u>Type of Action</u></b>	<b><u>Est Dollar Value</u></b>	<b><u>Requisition Receipt Date Prior to</u></b>
Purchase Requiements	\$1 to \$25,000	August 15, 1997
Purchase Requirements	\$25,000 to \$100,000	August 1, 1997
Contract	\$100,000 to \$1M	April 1, 1997
	\$1M and over	December 16, 1996
Exercise of Option	All	May 1, 1997
Delivery Order	All	August 1, 1997

Receipt dates established above do not apply to properly justified emergency requirements. Acceptance of emergency requirements after established receipt dates should be coordinated with the contracting officer/ordering officer. FISC San Diego is committed to being flexible to meet your needs.

Please send all correspondence to the following addresses:

**For acquisitions over \$100,000**

COMMANDING OFFICER  
FLEET AND INDUSTRIAL SUPPLY CENTER CODE 200  
937 NORTH HARBOR DRIVE SUITE 0060  
SAN DIEGO CA 92132-0060

**For acquisitions under \$100,000**

COMMANDING OFFICER  
FLEET AND INDUSTRIAL SUPPLY CENTER CODE 220  
937 NORTH HARBOR DRIVE SUITE 0260  
SAN DIEGO CA 92132-0260

Consistent with the NAVSUP strategic initiative of customer focused contracting, FISC San Diego is dedicated to reducing cycle times, satisfying customer's requirements, and maintaining open lines of communication. For further information regarding FISC San Diego Regional Contracts Department, contact CDR (sel) John Qua (CDR\_John\_Qua@fmso.navy.mil) at (619) 532-3435 or DSN 522-3435. Please visit our FISC San Diego WEB Site at [www.sd.fisc.navy.mil/index2.html](http://www.sd.fisc.navy.mil/index2.html).

*Advanced planning is essential to ensure effective procurement of requirements.*

# Medical Corner

## More Vaccines Now Available Through Pharmaceutical Prime Vendor:

The following vaccines by Merck & Co., Inc. have been added to PV for drop shipment only. Because of this special arrangement these items will have to be ordered separately. Delivery is between 2-4 days. For additional information, please call LCDRR. U. Orias at (619)556-0445 or DSN 526-0445.

<u>NSN</u>	<u>Item Name</u>	<u>PV#</u>	<u>Price</u>
6505-00-145-0180	Rubella Virus Vac. Live 10 doses	2717874	\$69.11
6505-00-165-6519	Measles, Mumps & Rubella 10 doses	3246386	161.17
6505-01-037-6792	Mumps Virus Vac. Live 10 doses	2212645	79.89

(1400-1530)

March 4, 18, 25

April 1, 8, 22 & 29

May 6 & 13

June 3, 10, 17 & 24

# Procurement Tips...

## Uniform Items

Uniform items that are part of the seabag are issued to Navy personnel upon enlistment and are to be replaced by the member with an annual cash allowance (Clothing Replacement Allowance). Therefore, seabag items will not be purchased with OPTAR funds except as provided below. Organizational or personal protective clothing (aiguillettes, special safety shoes, disposable coveralls, etc.) is the property of the organization, remains with the organization and its paid for with OPTAR funds.

## Seabag Items

Seabag items can be issued or replaced as work clothing and procured using OPTAR funds for mess management specialists (e.g. tee-shirts, trousers, caps, aprons, etc), and for personnel whose work is of a destructive nature to clothing (e.g. cleaning fuel oil tanks, entering boilers, decontamination work, etc).

## Shoulder Sleeve Unit Identification Marks (UIM)

Initial provision is free to each attached member and can be paid with OPTAR funds.

## Nametags

Nametags are optional uniform items. Appropriated funds may be utilized to purchase employee identification tags when a command determination is made justifying that their use is reasonably necessary for mission accomplishment. As with organizational clothing these items are the property of the organization and remain with the organization.

## Identification badges

Identification badges for security and corrections personnel are to be purchased with OPTAR funds. The badges covered under this area are Chief Master At Arms (CMAA), Master At Arms (MAA), Base Police, Guard and Corrections. The standard size for these badges is 2-1/2" H x 1-3/4"W. Badges must be ordered with serial numbers. Other identification badges such as Presidential service, Joint Chiefs of Staff (JCS) or other locally designed badges are not to be purchased with OPTAR funds.

## Plaques and Other Give-Away Items

The use of appropriated funds to buy give-away items such as plaques, cuff links, bracelets, ashtrays, paper-weights, cigarette lighters, novelty trash-cans, keychains and similar mementos is generally prohibited. All such give away items are viewed by the General Accounting Office (GAO) as personal gifts, the purchase of which does not constitute a necessary and proper use of appropriated funds. GAO has long held that appropriated funds may not be used to acquire items that are not specifically set forth in an appropriation act. The only exception is when there is a direct connection between such items and the purpose for which the appropriation was made, and if the item is essential to the carrying out of such purposes.

## Official Representation Funds

If a requiring activity has received an expense operating budget of Official Representation Funds (ORF), the funds may be used to purchase mementos, of a nominal cost used in connection with official ceremonies, dedications and functions. Such mementos may not exceed \$200 in cost. The mementos must be command mementos such as plaques and not personal items. Such mementos will not be presented to DoD personnel.

In all cases when items are presented within the authority of SECNAVINST 7042.7H, a complete record must be maintained by the authorization or sub-authorization holder to include the name of the recipient and the reason for the presentation.

## Awards to Military Personnel

Appropriated funds may be used to purchase medals, trophies, badges and similar devices for award to members of the armed forces, military units, or agencies for excellence in accomplishment or competition (excluding sports and welfare activities). The end of a tour of duty alone is not sufficient justification for presentation of a plaque, unless superior professional perfor-

mance is being recognized concurrently. Badges or buttons are authorized in recognition of military personnel for special services, good conduct and discharge under conditions other than dishonorable.

## Awards to Civilian Personnel

Appropriated funds may be used to purchase plaques to be given to civilian employees as authorized awards for recognition of special contributions.

# Advanced Traceability and Control

The Advanced Traceability and Control Program, commonly referred to as ATAC is a system that provides:

- Simplification of the retrograde process
- Traceability/Accountability/Visibility
- Centralized retrograde processing hubs
- Satellite receiving nodes
- Signature control
- Pick-up service
- Transaction Item Report (TIR) reporting to the NAVICP
- Fewer mis-identified assets
- Fewer mis-routed assets
- Reduced carcass tracking follow-ups
- Reduced transportation transit to the DOP/DSP

Why have this system? The ATAC system was developed because Depot Level Repairables represent a significant investment in inventory for each day in the repair cycle. Therefore, accountability and control of DLRs is essential from point of failure to the repair point. The Navy's overall investment in spare parts can be reduced, fleet operational readiness enhanced, and repair work can be better scheduled.

ATAC is the Navy's first logistics pipeline to truly couple logistics and transportation into a single physical distribution system. It is essentially a hub and spoke operation in which DLRs are collected and consolidated at satellite locations, known as nodes, where fleet activities are concentrated. The consolidated DLRs are transported to one of two screening hubs where the individual DLRs are technically evaluated. A determination is then made whether to repair, stow or dispose the asset. DLR's to be repaired or stowed are then shipped to the appropriate site.

The ATAC hub for West Coast and Pacific activities is located at the Fleet and Industrial Supply Center (FISC), NAS North Island, San Diego, California, in Building 661. It is here where the ATAC contractor receives DLR freight for processing through the system. The contractor will also pick-up freight within a 50 mile radius of this location. The ATAC contractor is required to pick-up from your activity within one work day after your call. If the volume dictates, and your activity is within a 50 mile radius of the ATAC hub, a regular scheduled pick-up can be arranged. If it is more convenient, you can deliver non-excluded repairables to this location. ATAC contractor hub personnel will unload your vehicle and provide you a signed, stamped and dated copy of your turn-in documentation. Currently, the ATAC contractor picks up on a daily basis at the following locations:

- AIMD, NAS North Island, Building 489
- Ships at the piers of the Naval Station, San Diego and North Island.

If you would like to arrange pick-up services, please phone the San Diego contractor hub manager, Charles Davis at (619) 435-4147.

## Important reminders to our customers... for the best service!

- One item per document
- Legible and correct documentation
- No exclusion items \*(see next section for excluded items)
- Do not mail to conus nodes - conus mail should be directed to a hub
- Deployed units may route to outconus nodes - activities that are not serviced by a node should forward to the hub by traceable means
- Ensure all HAZMAT properly certified
- Get a signature turnover

## ATAC Exclusion Items

- Inter-Aircraft intermediate Maintenance Department (AIMD) transfers
- Light Airborne Multi-Purpose System/Vertical Replenishment Pack-ups
- Repair and return items
- Ship's Excess
- Fleet Ballistic Missile (FBM) Components
- Aircraft engines
- Marine gas turbine engines

(continued)

## ATAC (continued)

- Classified items
- Secondary Repair Site (SRS) Field Level Repairables (FLRs)
- Nuclear Reactor Plant Material (SMIC X1-X5)
- Material Destined for Disposal (Document Identifier "BGJ")
- Redistributed Assets (Document identifiers A2\_)
- Radiac Material (Radioactive assets, Federal Supply Class 6665)
- Class A, B and C Explosives
- Small Arms, Ammunition and Night Vision Devices
- Helicopter Gear Boxes (over 8000 pounds)
- At nodes, oversized items that cannot be loaded into a closed 40 foot van by a single equipment operator with an 8000 pound lift truck
- 2F, 2S, 2J, 1\_ or 9\_ COG Material
- SUBPAC (NAVSEA) Material (Freight or turn-in document will be marked "SUBPAC Material")
- Improperly or UNCERTIFIED Hazardous material
- Material requiring additional specialized packing or crating.

## Helpful Hints about ATAC

**Tracing** -- The ATAC contractor, currently Morrison Knudsen Corporation, will help you in the event you require disposition data. Please have the document number, national stock number and the date of turn-in available when requesting a trace. The ATAC contractor should respond to your request immediately, or within one hour for tracing request of 20 (10 at a node) or fewer document numbers. The point of contact at the San Diego, California ATAC hub is Mr. Charles Davis at (619) 435-4147. The fax number is (619) 435-4157.

## Equipment Containing Hazardous Fluid Turn-in Update

### "F" Condition Material

When turning in equipment (cylinders, valves, pumps, struts, tanks etc) that contain hazardous fluids (oil, fuel, hydraulic fluids etc), they must be drained and purged prior to turn-in.

Any fluid left in equipment becomes hazardous waste and requires special handling and "Hazardous Waste" marking and labeling before you transport the fluid to an approved hazardous waste facility.

Advanced Traceability and Control (ATAC) is not a hazardous waste facility and cannot comply with hazardous waste requirements.

**Receipt Documentation, Getting Your Signature** - It is very important that you receive a stamped, signed and dated copy of your turn-in document. If the asset is received via the mail or commercial conveyance, a stamped, signed and dated copy should be mailed to you. If the delivery is in person or if the contractor picks up from your location, you should receive a stamped, signed and dated copy at the time of turn-in or pick-up.

**Clear and readable documentation** - When your turn-in documents that cannot be read, the ATAC contractor will construct a document number using the FISC San Diego (N68621) Unit Identification Code (UIC), the current julian date, and a serial number beginning with "ND\_". The national stock number field will be filed with "N"s. For example: N68621-6295-ND01, NSNNNNNNNNNNNNNNN. As you can see, your asset has lost its identity and your activity may never receive the proper credit. It is very important that your turn-in document is readable and understandable.

**Problems with pick-up, service or contractor** - Report to the Naval Transportation Support Center (Code 033) Contracting Officer's Representative Office, at (757) 444-9809 (DSN 564) or (757) 444-9813 (DSN 564), message address NAVTRASSUPCEN NORFOLK VA//033//. E-mail (COR) (Peggy\_Reynolds@fmso.navy.mil. Alternate COR: Ann\_Walls@fmso.navy.mil.

**Tracing Items that were Stowed** - If you are informed that an item was stowed you should contact the hub co-located activity for a stow location. In San Diego contact Mr. Joe Schumert at (619) 545-8369, FAX (619) 545-8370, DSN 735.

**Tracing Outside of ATAC** - If an item is shipped directly to the hub through the Defense Transportation System, primarily the Air Mobility Command and there is no record of San Diego hub receipt, contact the NAVTRANS Challenge, Tracing and Expediting Branch at (757) 444-8201, 444-8207, 444-9829, 444-4135, 444-9827, 444-7381/7382/7831. (DSN 564). Be prepared to furnish the Transportation Control Number, date turned over to AMC and the pieces, weight and cube. This Branch should be able to provide you with disposition.

**Transportation Account Codes** - ATAC shipments originating from the San Diego and Pacific area should use Transportation Account Code (TAC) N929. Note: These TACs are for ATAC shipments only. Use of these TACs for other shipments will result in your activity being billed transportation cost.

# Ship In the Spotlight

## MILIUS... A Seaworthy Name

USS MILIUS (DDG 69) is named in honor of Navy pilot Captain Paul L. Milius (1928-1968). On February 27, 1968, Captain (then Commander) Milius was piloting an OP-2E observation aircraft on an armed reconnaissance mission over Laos. While conducting his mission, the aircraft was hit by anti-aircraft artillery fire. Milius elected to remain at the controls of his badly damaged aircraft, maintaining stable flight, and ordered his seven crew members to bail out, all of whom were rescued. Just before the aircraft crashed, Milius is believed to have bailed out, but rescuers were unable to locate him. Captain Milius was declared Missing In Action (MIA), on April 26, 1978, his status was revised to Presumed Killed In Action (PKIA). He was posthumously awarded the Navy Cross.

## USS MILIUS (DDG 69) Guided Missile Destroyer

USS MILIUS (DDG 69) "Others before Myself"

Built by Ingalls Shipbuilding in Pascagoula, Mississippi. USS MILIUS (DDG 69) represents the most advanced shipbuilding technology in the world today. Since its founding in 1938, Ingalls has been a leader in ship design and has set the standard of excellence for workmanship. The skill and pride of the Ingalls shipbuilders is evident in every aspect of the MILIUS.

Keel Laid	August 8, 1994
Launched	August 1, 1995
Christened	October 28, 1995
Commissioning	November 23, 1996

The Aegis Weapons System, which distinguishes the MILIUS and other destroyers as the Navy's most capable surface combatants, is the heart for the ship's warfighting capability. The Aegis Combat System is an extensive integration of electronic detection, engagement and control equipment, and provides MILIUS with a truly multi-mission capability, fully equipping it to meet the demands of the modern naval warfare.

## Crest and Shield

The crest was designed around the heroic actions of our ship's namesake, Captain Paul L. Milius, and the fierce fighting power of the Aegis guided missile destroyer. Dark blue and gold are colors traditionally used by the Navy and denote the sea and excellence. The shield itself reflects the power of the Aegis shield. The double edged battle-axe symbolizes the power of the modern guided missile destroyer. The battle-axe harnessed is a warning to all that peace should be maintained; provoked and unleashed, the battle-axe is a punishing offensive weapon capable of projecting seapower on the land, in the air, on and beneath the sea. The crossed swords are the modern Navy sword of today and the cutlass of the John Paul Jones era, symbolizing the enduring tradition and heritage of the United States Navy. The border, for unity, is red, highlighting the readiness for action and sacrifice, if necessary. The seven bolts on the border represent the seven lives saved by Captain Milius' heroic actions.

The lion suggests Captain Milius' extraordinary heroism as the aircraft commander in Observation Squadron Sixty-Seven for which he received the Navy Cross, he presents the cross-pate, underscoring Milius' selfless courage and inspiring devotion to duty.

The translation of the Latin motto is **"OTHERS BEFORE MYSELF."**

USS MILIUS is commanded by CDR Daine Eisold. The Support Officer is LT Ron Collison and the Assistant Support Officer is LTJG Mike Sweeney.

## Putting Yourself "In the Spotlight"

Would you like to see your ship or shore station in the Spotlight? We are actively recruiting supply officers to write one page biographies on their activities. This is a good way to get publicity for your activity. Submit activity biographies to Gloria M. Ewing, Code 071, 532-1442.

## HAZMAT Environmental Protection Training

**Course:** HAZMAT/Environmental Site Specific Train the Trainer  
**Date:** March 26, 1997  
**Time:** 0800-1600  
**Location:** Fleet and Industrial Supply Center  
 Bldg 1, 3rd Floor, Nautical Room

**Objective:** This eight hour course will cover OSHA and EPA requirements. It will serve as a "Train the Trainers" course for supervisors and managers to provide site specific training to their employees who work with hazardous materials

**Target audience:** Supervisors and managers of HAZMAT employees.

**Nomination deadline:** March 12.

**Cost:** No cost includes student guide.

**Course:** Transportation of Hazardous Material (certification)

**Date:** March 31 - April 11.

**Time:** 0800-1600

**Location:** Fleet and Industrial Supply Center  
 Bldg 1, 3rd Floor, Nautical Room

**Instructor:** An instructor from the Navy Supply Corps School, Athens, Georgia will be conducting this course. Quotas are limited on a first-come/first-serve basis.

**Objective:** This 80 hour course will provide qualification to certify hazardous material for military air shipment. This course provides a comprehensive overview of the transportation hazardous materials by motor, rail, and water. Topics include: national, state, and local regulations, storage, handling, packing, and labeling of hazardous material, various hazardous material warning systems, use of applicable Codes of Federal Regulations (CFR) and AFR 71-4 (NAVSUP-505), commercial tariffs, documentations, forms, labels marking, placarding, examinations, and others. Target Audience: Officers, GS-5/WG-5 and above, and enlisted shipment of hazardous materials.

**Nominations deadline:** March 17.

**Cost:** \$300/Attendee (\$270 with training membership discount) includes student guide.

**Enrollment procedures:** Provide the following information for nomination.

- ✎ Name
- ✎ Activity
- ✎ Phone number, and
- ✎ FAX number

Please contact Jodi Morehouse or Sally Yacko, FISC Training Center, Code 073/026, DSN 522-2038 or COMM (619) 532-2038, FAX DSN 522-2340 or COMM (619) 532-2340 to request quotas before submitting a payment document to:

COMMANDING OFFICER  
 ATTN TRAINING CENTER CODE 073/026  
 FLEET AND INDUSTRIAL SUPPLY CENTER  
 937 NORTH HARBOR DRIVE  
 SAN DIEGO CA 92132-0028

**Cancellation policy:** A notice of cancellation is required five working days prior to the course date. Registrants who fail to give notice in the required time frame will be charged full tuition. Please notify the point of contact with course cancellation. Substitutions will be accepted up to the start date of the course.

**Reporting information:** All nominees confirmed will receive reporting information.

## SIMA San Diego Earns California Quality Award

SANDIEGO (NWSA)-- The Shore Intermediate Maintenance Activity (SIMA), San Diego, received the 1996 California Quality Award in the Government category.

The program, administered by the California Council for Quality and Service (CCQS), honors organizations from the private and public sector who excel in the areas of quality and customer satisfaction.

SIMA was recognized for its superior maintenance support and training to more than 100 Navy ships, submarines, shore activities and other commands of the U.S. Pacific Fleet and Coast Guard.

As an "intermediate-level" maintenance facility, SIMA complements and bridges the gap between routine shipboard repairs and depot-level repairs.

SIMA has been in operation since 1978 and has 2,400 military and civilian personnel. Its annual operating budget exceeds \$37 million.

CCQS also recognized SIMA for its "outstanding ship repair requests record" during 1995. During the 12-month period, SIMA completed 691 ship repair requests involving nearly 900,000 hours of work.

## USS CURTS (FFG 38) Moving to San Diego

SANDIEGO (NWSA)-- USS CURTS (FFG 38) will be homeported in San Diego beginning June 30, 1997, as part of a planned rotation of forward deployed naval forces. Since June 1988 the guided missile frigate has been based in Yokosuka, Japan, providing a portion of the Navy's forward presence in the Western Pacific.

Named for the late ADM Maurice E. Curtis, the ship was commissioned Oct. 8, 1983. It has a crew of 22 officers, 15 chief petty officers and 195 enlisted personnel.

Curtis will be replaced in Yokosuka by U S S John S. McCain (DDG 56), currently homeported in Pearl Harbor, Hawaii.
